

# CLIENT BONUS POLICY

AVEXA Markets Ltd

Policy Number: CL-BONUS-001 | Version: 1.3

Policy Title: Client Engagement and Trading Bonus Policy

Effective Date: 19/09/2026

Version: 1.3 (Updated)

Approved By: Board of Directors

## Introduction

At Avexa Markets Ltd, we are committed to enriching our clients' trading journey by providing strategic bonus offerings. Our bonus policies are meticulously designed to deliver tangible value, foster active trading participation, and acknowledge the loyalty of our esteemed clients. We uphold the highest standards of industry best practices and regulatory compliance, ensuring a transparent, fair, and rewarding trading environment. This document details the terms and conditions governing our bonus programs, and we strongly advise all clients to review these policies thoroughly before participating.

## Eligibility for Bonuses

- Account Verification:** To be eligible for any bonus program, clients must possess a fully verified live trading account with Avexa Markets Ltd. This comprehensive verification process necessitates the submission of valid identification, proof of residential address, and any other requisite documentation in accordance with our stringent compliance policies.
- Client Status:** Our bonus offerings are extended to both new clients opening their initial live trading account and existing clients making subsequent deposits. Specific terms and conditions for each bonus type and client segment will be explicitly detailed within the respective promotional materials.
- Minimum Deposit Requirement:** Certain bonus types may require a minimum initial or subsequent deposit to qualify. This minimum threshold will be clearly communicated in the specific bonus promotion.

## Bonus Types

Avexa Markets Ltd may, at its sole discretion, offer the following types of bonuses:

- Welcome (First Deposit) Bonus:** New clients are eligible to receive a welcome bonus upon their initial deposit into a live trading account. The bonus amount is calculated as a percentage of the first deposit, as specified in the prevailing promotional guidelines.
  - Maximum Bonus:** Clients may receive a bonus of up to 20% of their total initial deposited amount. For example, an initial deposit of \$1,000 may yield a bonus of up to \$200.

**5. Subsequent Deposit Bonus:** Avexa Markets Ltd offers bonuses on subsequent deposits made by existing clients to their trading accounts. The bonus amount is calculated based on the redeposit amount and will vary depending on the specific promotional campaign active at the time of the deposit and the client's deposit tier.

- **Bonus Range:** Clients can typically receive a bonus of up to 50% on their total subsequent deposited amount, depending on the promotional offer. For instance, a redeposit of \$2,000 may earn a bonus of up to \$1,000, though specific campaigns might offer different percentages based on deposit size or loyalty.

**6. Referral Bonus Program:** Clients who successfully refer new individuals to Avexa Markets Ltd may be eligible for a referral bonus. This bonus is awarded to the referrer upon the referred client's successful account verification, initial deposit, and completion of a predefined minimum trading volume.

- **Maximum Bonus:** Referrers can earn a bonus of up to 15% of the initial deposit made by the referred client, subject to a cap per referral. For example, if the referred client deposits \$1,000 and meets the trading criteria, the referrer may receive a bonus of \$150.

**7. Trading Volume Milestone Bonus:** Clients who achieve specific cumulative trading volume milestones within a designated period may qualify for a trading volume bonus. This bonus is designed to reward active engagement and consistent participation in the financial markets.

- **Details:** The precise criteria, including the required trading volume tiers and corresponding bonus amounts, will be communicated directly to eligible clients through our official promotional channels.

**8. Loyalty & Tenure Bonus:** Avexa Markets Ltd values long-term client relationships. A loyalty bonus may be offered to clients who maintain an active trading account for a specific duration or reach cumulative deposit/trading volume thresholds over an extended period.

- **Details:** Eligibility, calculation, and payout frequency for loyalty bonuses will be determined and communicated by Avexa Markets Ltd periodically.

**9. Discretionary & Strategic Partner Bonuses:** In addition to the standard bonus types, Avexa Markets Ltd may, from time to time, offer special discretionary bonuses to high-value clients, strategic partners, or for participation in specific promotional campaigns. These bonuses will be subject to unique terms and conditions communicated at the time of the offer.

## Terms and Conditions

All bonus offerings at Avexa Markets Ltd are subject to specific terms and conditions, which detail eligibility criteria, calculation methodologies, withdrawal requirements, and other pertinent information. Clients are strongly encouraged to carefully read and fully understand these terms prior to participating in any bonus program.

**10. General Application:** All bonuses are credited to the client's trading account for trading purposes only. They are not immediately withdrawable cash.

**11. Fair Trading Practices:** Avexa Markets Ltd is steadfast in its commitment to promoting ethical and responsible trading practices. We reserve the unequivocal right to withhold, cancel, or reclaim any bonus, and potentially profits derived therefrom, if any abusive, fraudulent,

manipulative, or otherwise unethical activities are detected. Clients are expected to engage in legitimate trading activities and strictly adhere to all company policies.

- 12. Maximum Bonus Cap:** The maximum aggregate bonus amount that any single client can receive across all bonus types is capped at \$40,000 USD (or equivalent in other currencies). This includes bonuses from initial deposits, subsequent redeposits, and all other bonus programs.
- 13. Non-Withdrawable Nature of Bonus Funds:** Bonus funds themselves are provided solely for the purpose of increasing trading equity and leverage. They are not directly withdrawable as cash. Only profits generated from trading with the assistance of bonus funds may be withdrawn, subject to meeting the specified trading turnover requirements.
- 14. Withdrawal Conditions for Funds (Including Profits and Deposits) When Bonus Is Active:** If a client chooses to withdraw any funds from their trading account while a bonus is active, the withdrawal will be directly dependent on the trading volume (turnover) opened by the client.
  - Any bonus amount that has not yet fulfilled the required trading turnover (see Section 15, Trading Turnover Requirements) will be proportionally or fully deducted from their account upon withdrawal. This deduction applies to both the bonus funds and any profits generated through trading.
  - Only after the full trading turnover requirement has been met for a specific bonus will profits derived from trading with that bonus become fully withdrawable without impacting the bonus.
  - Prior to meeting this requirement, any withdrawal, whether of deposited capital or accrued profits, will result in the forfeiture or proportional removal of the active bonus. The amount of bonus removed will be calculated based on the withdrawal amount relative to the total equity (including bonus) in the account, or as a full forfeiture if the withdrawal significantly reduces trading capital.
- 15. Trading Turnover Requirements:** Clients must fulfil specific trading volume (turnover) requirements associated with their bonuses within 120 days of receiving the bonus. These requirements will be clearly stated in the promotional details of each bonus. Failure to meet these requirements within the stipulated timeframe may result in the forfeiture of the bonus amount and any profits directly attributable to the bonus funds.
- 16. Negative Balance Adjustments:** In instances where clients request a negative balance adjustment (e.g., due to market volatility), the full bonus amount previously credited will be removed from the account to partially or fully cover the negative balance. Clients may deposit again and receive a new bonus on their subsequent deposit, provided they have not exceeded the overall maximum bonus cap.
- 17. Single Account Eligibility:** Each client is eligible for bonuses on only one designated trading account. Clients found to have multiple accounts attempting to claim multiple bonuses will have all associated bonuses revoked, and may face further action.
- 18. Bonus Utilisation Review:** Avexa Markets Ltd reserves the right to review trading activity and remove any bonus if a client is deemed to be exclusively trading on bonus funds with minimal or no genuine capital contribution, or engaging in low-risk/arbitrage strategies solely to fulfill bonus requirements without genuine trading intent. Bonuses may be removed within 30 days of being credited if such activity is detected.

**19. Specific Promotional Terms:** Individual bonus promotions may carry additional or specific terms and conditions that supersede or supplement the general terms outlined in this policy. Clients must review these specific terms carefully for each bonus they participate in.

## Policy Review and Amendments

These bonus policies are subject to periodic review and adjustment to reflect evolving market conditions, regulatory requirements, and Avexa Markets Ltd's business objectives. Avexa Markets Ltd retains the absolute right to modify, suspend, or terminate any bonus program, or this policy, at any time, with or without prior notice.
